# **INDEPENDENT AUDITORS' REPORT**

Board of Education School District of Amery Amery, Wisconsin

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of Amery, Wisconsin (District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of Amery, Wisconsin as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# **Other Matters**

# **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, other postemployment benefit schedules and pension schedules, as referenced in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The individual and combining fund statements and, the accompanying schedule of expenditures of federal awards and schedule of state financial assistance are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration, respectively, and are not a required part of the basic financial statements. This information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2020 December 24, 2020on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering School District of Amery's internal control over financial reporting and compliance.

As management of the School District of Amery (District), we offer the readers of the District's financial statements this narrative overview and analysis of financial activities of the District for the fiscal year ending June 30, 2020. We encourage readers to consider the information presented here in conjunction with the District's financial statements.

# FINANCIAL HIGHLIGHTS

Key financial highlights for the 2019-20 fiscal year include the following:

- The assets and deferred outflows of resources of the District exceeded liabilities and deferred inflows or resources at the close of the fiscal year by \$18,880,310 (net position). Of this amount, \$15,391,277 represents net investment in capital assets, \$4,189,553 is for restricted purposes. The remaining deficit balance of \$700,520 is classified as unrestricted net position.
- Net position for the most recent fiscal year increased \$346,471 over the prior year.
- Net capital assets decreased by \$779,512 during the year, reflecting the cost of acquisitions less than depreciation expense and disposals.
- The District's general obligation long-term bonds, including the current portion, decreased \$1,035,155 during the year. The District's other long-term obligations, including the current portions, decreased \$2,782,414 during the year.
- Program revenues, in the form of charges for services and grants and contributions, accounted for \$4,837,139 of total revenues of \$25,039,046. General revenues accounted for \$20,201,907, including \$8,970,441 of property taxes and \$9,671,567 of general aid. General revenues accounted for 80.7% of all revenues.
- The District had a total of \$24,692,575 of expenses, of which \$4,837,139 were financed with program revenues.
- The total fund balance of the District's governmental funds decreased \$60,112. The general fund had an increase of \$38,551, with an increase of \$9,889 in the debt service fund, and a decrease of \$108,552 in non-major funds.

# OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements; (2) fund financial statements; and (3) notes to basic financial statements. This report also includes other supplementary information in addition to the basic financial statements, including required supplementary information consisting of the management's discussion and analysis, budgetary comparisons for the major governmental funds, other post-employment benefit related schedules, and pension related schedules.

# **Government-Wide Financial Statements**

The two government-wide financial statements are the *Statement of Net Position* and *Statement of Activities*. These statements present an aggregate view of the District's finances in a manner similar to private-sector business. These statements are designed to distinguish functions that are supported principally by property taxes and intergovernmental revenues, called *governmental activities*, from functions that are intended to recover all or a significant portion of costs through user fees and charges called *business-type activities*. The District had no programs that were accounted for as business-type activities.

The *Statement of Net Position* presents information on all of the District's assets, deferred outflows/inflows of resources and liabilities with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The *Statement of Activities* presents information showing how the District's net position changed during the year. This statement reports the cost of governmental functions and how those functions were financed for the fiscal year.

## Fund Financial Statements

The District also produces *fund financial statements*. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities. The District, like other state and local governments, uses fund accounting to demonstrate compliance with finance related legal requirements and/or to control and manage money for particular purposes. Fund statements generally report operations in more detail than the government-wide statements and provide information that may be useful in evaluating a District's near-term financing requirements. Funds can be categorized into three categories: governmental funds, proprietary funds, and fiduciary funds. The District had no proprietary funds for the fiscal year ended June 30, 2020.

**Governmental Funds** – The District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for funding future basic services. Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Governmental fund information does not report on long-term commitments as is reported on the government-wide statements. Therefore, explanations of the differences between the governmental funds and the government-wide statements are included as separate statements within the basic financial statements.

Governmental funds include the District's six regular funds; general, education trust, food service, debt service, community services fund (adult education, theatre and day care funds) and long-term capital projects fund. Also, the District has considered its debt service funds as one fund for report purposes.

Financial information is presented separately on both the *balance sheet* and the *statement of revenues*, *expenditures and changes in fund balances* for the general fund and debt service fund as these are considered to be major funds. Data for the education trust fund, the food service fund, the community services funds, and the long-term capital projects fund is combined into a single, aggregated column. Data for each of these individual non-major funds is provided separately as supplementary information.

The District adopts annual budgets for its funds in accordance with statutory requirements. Budgetary comparison statements for the general fund are presented as a major fund has been provided as required supplementary information.

**Fiduciary Funds** – The District serves as a trustee, or *fiduciary*, for student and related organizations (agency funds) for scholarships established with the District by third-party donors (private-purpose trust funds) and for employee benefit plans (employee benefit trust fund). The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. Fiduciary activities are excluded from the government-wide financial statements because the District cannot use these assets to finance its operations.

#### Notes of Financial Statements

The *notes to financial statements* provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements follow the basic financial statements.

## FINANCIAL ANALYSIS

# The District as a Whole

**Net Position.** Table 1, below, provides a summary of the District's net position for the fiscal year ended June 30, 2020, compared to the prior fiscal year.

	Governmental Activities			
	2020	2019		
Current and Other Assets Capital Assets Total Assets	\$ 11,370,877 16,907,042 28,277,919	\$9,194,969 17,686,554 26,881,523

Net Position: Net Investment in Capital Assets Restricted Unrestricted Total Net Position	15,391,277 4,189,553 (700,520) \$ 18,880,310	14,954,679 1,872,146 1,707,014 \$ 18,533,839		

# Table 1Condensed Statement of Net Position

A significant portion of the District's net position (81.5%) is its investment in capital assets (e.g. land, buildings, and equipment), less related outstanding debt used to acquire those assets. These assets are used to provide services to students and the community and, consequently, are not available for future spending.

Restricted net position accounts for 22.2% of total net position. The District is required by state statute to have available in the debt service fund an amount sufficient to make debt payments required between the beginning of the fiscal year (July 1) and receipt of the first tax payments (normally January 20) on its general obligation debt. The restricted net position includes \$1,382,567 for this purpose.

Total liabilities decreased by \$3,858,278 during the year, including a net decrease of \$1,035,155 in outstanding general obligation bonds.

The District's net position increased \$346,471 during the year. The District's unrestricted net position decreased \$2,407,534 to a deficit balance of \$700,520

Change in Net Position. Table 2 shows the change in net position for the fiscal years 2020 and 2019:

Change in Net Position	\$ 346,471	\$ (505,922)				

# Table 2 Change in Net Position

As shown in Table 2, general revenues provided 80.7% of the funding required for governmental activities for fiscal year 2020 with property taxes providing 35.8% of the funding and general formula aid providing 38.6%. Program revenues, consisting of charges for services, grants and contributions, provided 19.3% of the funding. The program revenues were allocated to the expense functions as shown in Table 3.

The District relies primarily on property taxes and general aid to fund governmental activities. School funding regulations restrict the amount by which these two revenue sources, in combination, may be increased. This restriction, called revenue limit, is intended to help hold down increases in property taxes throughout the state. The tax levy for repayment of referendum approved debt is not subject to the revenue limit.

The District's tax levy for the last two fiscal years consisted of the following components:

	2020	2019		
Subject to Revenue Limit:				
General Fund	\$ 7,755,037	\$	7,628,584	
Debt Service (Non-Referendum)	179,254		199,936	
Not Subject to Revenue Limit:				
Debt Service	932,150		1,034,950	
Community Service	104,000		104,000	
	\$ 8,970,441	\$	8,967,470	

General aid is paid according to a formula taking into consideration District spending and property values on a per student basis compared to spending and property values for the state as a whole. The District's general aid increased \$191,818 (2.0%) in 2020, from \$9,479,749 in 2019 to \$9,671,567 in 2020.

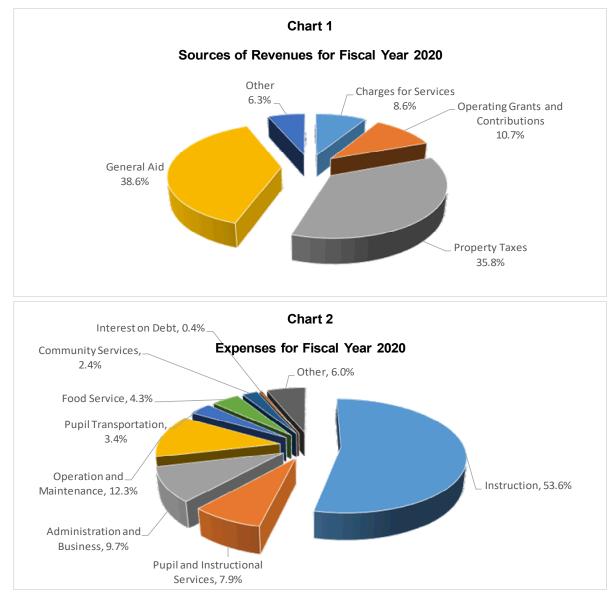

Table 3 presents the total cost of the major activities: instruction, pupil and instructional services, administration and business, operations and maintenance, pupil transportation, food service, community services, interest and fiscal fees and other. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

# Table 3 Net Cost of Governmental Activities

- The cost of all governmental activities for the year was \$24,692,575 a decrease of \$645,700.
- Individuals who directly participated or benefited from a program offering paid for \$2,157,838 of costs.
- Federal and state governments subsidized certain programs with grants and contributions of \$2,679,301.
- Net cost of governmental activities (\$19,855,436), were financed by general revenues, which are made up primarily of property taxes (\$8,970,441) and general aid (\$9,671,567).

The composition of governmental revenues by source and governmental expenses by function are illustrated in Chart 1 and Chart 2 below.

# **Governmental Funds**

Changes in the District's governmental funds for the year ended June 30, 2020 are reflected below:

Fund	Balance June 30, 2020		Balance June 30, 2019			rrent Year Change
Major Funds:						
General Fund	\$ 3,36	5,501 \$	3,326	,950	\$	38,551

	\$ 5,16	6,580 \$	\$ 5,226,692		\$	(60,112)

The significant portion of the general fund year-end fund balance was unassigned by the District even though it was used to partially finance the outstanding taxes receivable at that date totaling \$3,293,492 which are paid to the District in August subsequent to the June 30, fiscal year-end.

The balance in the debt service fund is to provide the necessary accumulation of funds for debt retirement needs prior to collection of next year's tax levy.

# **General Fund Budgetary Highlights**

Consistent with current statutes and regulations an *original* budget is adopted in October following determination of official enrollment and certification of general state aids. The District did not modify its original budget during fiscal year 2020 as shown in the budgetary comparison schedules under *Required Supplementary Information*. The District ended the year with an overall positive budget variance primarily due to actual interdistrict sources being more than budgeted combined with total expenditures being less than budgeted. The main components of these expenditures being regular curriculum and debt service being less than budgeted.

# CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

As of the end of fiscal year 2020, the District had invested over \$38.9 million in a broad range of capital assets, including land, land improvements, buildings and equipment (see Table 4). This amount represents a net decrease of \$292,864 from the previous year. Accumulated depreciation on these assets totaled \$22,003,604.

Table 4 Capital Assets									
	%								
	2020	Change							
Land	\$ 415,142	\$ 397,371	4.5%

Total	\$ 16,907,042	\$ 17,686,554	-4.4						

- Asset acquisitions during the year totaled \$456,787.
- The District disposed of \$163,923 of capital assets during the year.
- The District recognized depreciation expense of \$1,219,228 during the year.

(More detailed information about capital assets can be found in Note 3.C to the financial statements.)

# **Long-Term Obligations**

At year-end, the District had over \$1.5 million in general obligation bonds outstanding. The District also had other long-term obligations outstanding of approximately \$1.7 million (see Table 5).

General obligation debt of the District is secured by an irrepealable tax levy adopted by the School Board at the time of issuance. Wisconsin state statutes require that the first property tax receipts be segregated for use for annual debt service payments.

# Table 5 Outstanding Long-Term Obligations

• The District retired \$1,035,155 of outstanding general obligation debt during the year.

(More detailed information about the District's long-term obligations is presented in Note 3.E to the financial statements.)

# FACTORS BEARING ON THE DISTRICT'S FUTURE

Currently known circumstances that will impact the District's financial status in the future are:

• The District's enrollment and property values are declining.

# CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Basis of Presentation

The financial statements of the School District of Amery (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

# B. Reporting Entity

The School District of Amery is organized as a common school district. The District, governed by a five member elected school board, operates grades PK through twelve and is comprised of all or parts of twelve taxing districts.

The financial reporting of the District is defined by the GASB to consist of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that the exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The basic financial statements of the District consist solely of the primary government. No other organizations were identified for inclusion in the financial reporting entity of the District.

#### C. Government-Wide and Fund Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds) as described below:

#### **Government-Wide Statements**

The statement of net position and the statement of activities present financial information about the District's governmental type activities. (The District had no business-type activities for the reporting year.) These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Government-Wide and Fund Financial Statements (Continued)

#### Government-Wide Statements (Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

## Fund Financial Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major funds; each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District has the following major governmental funds:

#### General Fund

The General Fund is the operating fund of the District. It is used to account for all financial resources of the District except those required to be accounted for in another fund.

#### Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Additionally, the District reports the following fiduciary funds:

#### Private-Purpose Fund

The Private-Purpose Fund is used to account for assets held by the District in a trustee capacity for individuals, private organizations and for other governmental units, including scholarship funds.

#### Employee Benefit Trust Fund

The Employee Benefit Trust Fund is used to account for resources held in trust for formally established employee benefit plans.

#### Agency Fund

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and/or other governmental units; specifically, activities of student organizations are accounted for in the agency fund.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Measurement Focus and Basis of Accounting

The government-wide and fiduciary trust funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Agency funds do not have a measurement focus.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in financial statements and accompanying notes. Actual results could differ from those estimates.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# E. Assets, Liabilities, Deferred Inflows/Outflows and Net Position or Equity

## 1. Deposits and Investments

Investments of the District are stated at fair value. The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from date of acquisition. Cash and investment balances for individual funds are pooled unless maintained in segregated accounts.

The District is required to invest its funds in accordance with Wisconsin Statutes 66.0603 and 67.11(2). State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. agency issues, high grade commercial paper, and the local government pooled-investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States and the local government pooled-investment fund.

Donations to the District of securities or other property are included in trust funds and are invested as the donor specifies. In the absence of any specific directions, the District may invest the donated items in accordance with the laws applicable to trust investments.

# 2. Receivables and Payables

**Property Taxes**. Under Wisconsin law, personal property taxes and first installment real estate taxes are collected by city, town, and village treasurers or clerks who then make proportional settlement with the school district and county treasurer for those taxes collected on their behalf. The county treasurer then makes settlement with the city, town, village, and school districts before retaining any for county purposes collects second installment real estate taxes and delinquent taxes.

The District's property taxes are levied on or before October 31 on the equalized property valuation certified by the Department of Revenue. As permitted by a collecting municipality's ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31st, and a final payment no later than the following July 31st. The District is paid by the collecting municipality its proportionate share of tax collections received through the last day of the preceding month on or before January 15th, and by the 20th of each subsequent month thereafter. On or before August 20th, the County Treasurer makes full settlement to the District for any remaining balance. The County assumes all responsibility for delinquent real property taxes.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# E. Assets, Liabilities, Deferred Inflows/Outflows and Net Position or Equity (Continued)

#### 2. Receivables and Payables (Continued)

**Property Taxes (Continued).** Property taxes are recognized as revenue in the period for which taxes are levied. The 2019 tax levy is used to finance operations of the District's fiscal year ended June 30, 2020. All property taxes are considered due on January 1st, when an enforceable lien is assessed against the property and the taxpayer is liable for the taxes. All taxes that are collected within 60 days of June 30th and are available to pay current liabilities.

**Accounts Receivable**. All accounts receivable are shown at gross amounts. No allowance for uncollectible accounts has been provided since such allowance would not be material.

**Interfund Balances**. The current portion of lending/borrowing arrangements between funds is identified as "due to/from other funds". The non-current portion of outstanding balances between funds is reported as "advances to/from other funds". Advances between funds are offset by a fund balance reserve account to indicate that they are not available for appropriation and are not expendable available financial resources. For government-wide financial statements, eliminations were made for amounts due to and due from within the same fund type.

# 3. Inventories and Prepaid Items

Expendable supplies or non-capital items acquired for initial use in subsequent fiscal periods are recorded as inventories and/or prepaid expenses. Inventory and prepaid supplies are valued at the lower of cost (first-in, first-out method) or market and recorded as an expenditure when consumed rather than when purchased.

#### 4. Capital Assets

Capital assets are reported at actual cost or estimated historical costs based on an appraisal conducted by an independent third-party appraisal firm. Donated assets are reported at acquisition value at the time received.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# E. Assets, Liabilities, Deferred Inflows/Outflows and Net Position or Equity (Continued)

## 4. Capital Assets (Continued)

Capitalization thresholds (the dollar valued above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements are as follows:

			Depreciation Method	Estimated Useful Life
Land	\$	5,000	N/A	NA
Land Improvements		5,000	Straight-Line	20 Years
Buildings		5,000	Straight-Line	50 Years
Building Improvements		5,000	Straight-Line	7 - 30 Years
Furniture and Equipment		5,000	Straight-Line	5 - 20 Years
Vehicles		5,000	Straight-Line	8 Years
Textbooks, Library, and Media*		5,000	Straight-Line	5 - 7 Years

\* For purposes of determining the capitalization threshold for these items the District groups all purchases for the year.

#### 5. Deferred Outflows of Resources

The District reports decreases in net position or fund balance that relate to future periods as deferred outflows of resources in a separate section of its government-wide statement of net position or governmental fund balance sheet. The District reports deferred outflows of resources for other post-employment benefit and pension related items.

#### 6. Deferred Inflows of Resources

The District reports increases in net position or fund balance that apply to a future period as deferred inflows of resources in a separate section of its government-wide statement of net position or governmental fund balance sheet. The District reports deferred inflows of resources for other post-employment benefit and pension related items.

#### 7. Compensated Absences

It is the District's policy to permit certain employees to accumulate paid leave benefits. Liabilities for accumulated employee leave benefits are not accrued in the District's governmental fund financial statements but are recorded as expenditures when paid. Such liabilities are accrued in the government-wide financial statements when earned. The District's policies and estimated liabilities at year-end are further discussed in Note 4.C.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# E. Assets, Liabilities, Deferred Inflows/Outflows and Net Position or Equity (Continued)

#### 8. Other Postemployment Benefits Payable

Under the provisions of various employee and union contracts the District provides a retirement program for certain employees which include certain health insurance benefits. The amount to be incurred is limited as specified by contract. All premiums are funded from an employee benefit trust fund (see Note 4.E). The benefit accrual was actuarially determined.

## 9. Wisconsin Retirement System Pension Benefits

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# 10. Long-Term Obligations

In the government-wide financial statements, outstanding long-term debt and other long-term obligations are reported as liabilities.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. As required by state statute, premium and accrued interest received as part of the proceeds are recorded in the debt service fund.

#### 11. Use of Restricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# E. Assets, Liabilities, Deferred Inflows/Outflows and Net Position or Equity (Continued)

## **12. Equity Classifications**

Fund equity, representing the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources, is classified as follows in the District's financial statements:

#### Government-Wide Statements.

Fund equity is classified as net position in the government-wide financial statements and is displayed in three components. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is displayed as unrestricted.

## Fund Financial Statements.

In the fund financial statements, governmental funds report components of fund balance to provide information about fund balance availability for appropriation. Nonspendable fund balance represents amounts that are inherently nonspendable or assets that are legally or contractually required to be maintained intact. Restricted fund balance represents amounts available for appropriation but intended for a specific use and is legally restricted by outside parties. Committed fund balance represents constraints on spending that the government imposes upon itself by highlevel formal action prior to the close of the fiscal period. Assigned fund balance represents resources intended for spending for a purpose set by the government body itself or by some person or body delegated to exercise such authority in accordance with policy established by the board.

Unassigned fund balance is the residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications. It is the District's policy that at the end of each fiscal year, the District will maintain unassigned portion of fund balance for cash flow of at least 5% of annual general fund expenditures.

Committed fund balance is required to be established, modified, or rescinded by resolution of the District Board prior to each year end. Based on resolution of the District Board, the District Superintendent and/or District Director of Finances have the authority to establish or modify assigned fund balance. When restricted and unrestricted fund balance is available for an expenditure, it is the District's policy to first use restricted fund balance. When committed, assigned, and unassigned fund balance is available for an expenditure, it is the District's policy to assigned and finally unassigned fund balance.

## A. Deposits and Investments

The debt service fund accounts for its transactions through separate and distinct bank and investment accounts as recommended by the Department of Public Instruction. In addition, the trust and agency funds use separate and distinct accounts. All other funds share in common cash and investment accounts.

The District's cash and investments balances at June 30, 2020 were shown in the financial statements as follows:

Governmental Funds	\$ 5,260,240
Fiduciary Funds:	
Employee Benefit Trust Funds	657,620
Private Purpose Trust Funds	1,711
Agency Funds	166,834
Total	\$ 6,086,405
Employee Benefit Trust Funds Private Purpose Trust Funds Agency Funds	\$ 1,711 166,834

The above balances at June 30, 2020 consisted of the following:

Deposits at Financial Institutions:	
Bank Accounts Subject to Federal and State	
Depository Coverage	\$ 5,428,585
Deposits with Fiscal Agent (Employee Benefit Trust Funds)	657,620
Non-Depository Petty Cash Funds	 200
Total	\$ 6,086,405

#### A. Deposits and Investments (Continued)

# **Deposits at Financial Institutions**

The insurance coverage of public unit accounts depends upon the type of deposit and the location of the insured depository institution. All time and savings deposits owned by a public unit and held by the public unit's official custodian in an insured depository institution within the State in which the public unit is located are added together and insured up to \$250,000. Separately, all demand deposits owned by a public unit and held by the public unit's official custodian in an insured depository institution within the State in which the public unit is located are added together and insured up to \$250,000. For the purpose of these rules, the term 'time and savings deposits' includes NOW accounts and money market deposit accounts but does not include interest-bearing demand deposit accounts (which were permitted after July 21, 2011). The term 'demand deposits' means both interest-bearing and noninterest-bearing deposits that are payable on demand and for which the depository institution does not reserve the right to require advance notice of an intended withdrawal. The insurance coverage of accounts held by government depositors is different if the depository institution is located outside the State in which the public unit is located. In that case, all deposits, both time and savings deposits and demand deposits, owned by the public unit and held by the public unit's official custodian are added together and insured up to \$250,000. Time and savings deposits are not insured separately from demand deposits.

Coverage under the State Guarantee Fund may not exceed \$400,000 above the amount of coverage under federal depository insurance at any institution and is limited by the availability of the appropriations authorized therein. (Due to the relatively small size of the State Guarantee Fund in relation to the total coverage, total recovery of losses may not be available.) Also, Section 34.07 of the Wisconsin Statutes authorizes the District to collateralize its deposits that exceed the amount of coverage provided by federal depository insurance and the State Guarantee Fund.

Custodial credit risk for deposits is the risk that, in the event of bank failure, the District's deposits may not be returned. At June 30, 2020, the District's deposits were not exposed to custodial credit risk.

#### Deposits in Repurchase Investment Sweep Account

The District has invested funds in government securities through and an overnight repurchase investment sweep account. After all debit and credit transactions have posted at the end of each business day, excess balances are automatically moved to the automated repurchase investment sweep account for overnight investment in government securities to maximize the use of idle funds. Interest is earned on a daily basis and withdrawals are generally available on the day of the request. Deposits in repurchase investment sweep account are not covered by federal depository insurance but are collateralized at 100% of the market value. The financial institution is acting as the agent and serves as custodian of the securities held as collateral for the District.

## A. Deposits and Investments (Continued)

#### **Investments**

The District's investments at June 30, 2020 consisted of deposits in the following external investment pool, an investment with a fiscal agent:

#### Investment with Fiscal Agent

The deposits with fiscal agent consisted of amounts paid into the employee benefit trust fund (see Note 4.B and Note 4.C) and are comprised of amounts invested in non-registered fixed annuity accounts. These funds (\$635,705) are held at MidAmerica. The investment is neither rated nor insured. Interest is earned on a daily basis and funds are available on demand.

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. The District's policy is to invest its funds in accordance with provisions of the Wisconsin Statutes previously discussed Note 1.E.1. The District does not have a concentration risk policy that would restrict the percentage of investment holdings that can be in one issuer or counterparty.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the fair values of investments will maturity dates further into the future are more sensitive to changes in market interest rates. The daily maturities of the investment in Mid-American mitigate this risk to the District.

# **B.** Fair Value Measurements

The District uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The District follows an accounting standard that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. In accordance with this standard, the District has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the combined statements of financial position are categorized based on the inputs to the valuation techniques as follows:

*Level 1* – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities.

#### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

#### **B.** Fair Value Measurements (Continued)

*Level 2* – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

*Level 3* – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants and would use in pricing the asset.

#### NOTE 4 OTHER INFORMATION

#### A. Wisconsin Retirement System Pension Plan Benefits

#### **General Information about the Pension Plan**

*Plan Description*. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS. ETF issued a standalone Comprehensive Annual Financial Report (CAFR), which can be found at https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements.

*Vesting*. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

*Benefits Provided.* Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and executive service retirement plan participants, if hired on or before December 31, 2016) are entitled to a retirement benefit based on a formula factor, their final average earning and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

#### General Information about the Pension Plan (Continued)

*Post-Retirement Adjustments.* The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the floor) set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

	Core Fund	Variable Fund
Year	Adjustment	Adjustment
2010	(1.3)	22.0
2011	(1.2)	11.0
2012	(7.0)	(7.0)
2013	(9.6)	9.0
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	10.0
2020	1.7	21.0

*Contributions.* Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the District's fiscal year reporting period July 1, 2019 through June 30, 2020, the WRS recognized \$736,656 in contributions from the employer.

Contribution rates as of June 30, 2020 are:

	2020		
	Employee	Employer	
General (Including Teachers)	6.75%	6.75%

#### Pension Liability (Asset), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported an asset of \$2,280,607 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2019. The District's proportion of the net pension asset was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers. At December 31, 2019, the District's proportion was 0.07072844% percent, which was a decrease of 0.00037728% from its proportion measured as of December 31, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$879,865. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including the discount rate, long-term expected rate of return, post-retirement adjustment, wage inflation rate, mortality and separation rates. The total pension liability for December 31, 2019 is based upon a roll-forward of the liability calculated from the December 31, 2018 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

*Discount rate.* A single discount rate of 7.00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.71% (Source: Fixed income municipal bonds with 20-years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2019. In population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 7.00% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members.

# B. Other Postemployment Benefit Other than Pensions (OPEB)

The District adopted Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions*. The District engaged an actuary to determine the District's liability for postemployment healthcare benefits other than pensions.

# Single-Employer Plan Description

The District offers a supplemental retirement program for certain employees which includes medical, dental, and long-term care insurance benefits. The District provides these benefits according to negotiated agreements. The amounts vary based on age, years of service, and classification of employees. The School Board of the District is designated as the administrator of the OPEB plan and it reserves the right to alter, amend, or terminate the OPEB at any time for any reason, without consent.

# **Benefits Provided**

<u>Administrators and Teachers</u>: At least age 56 with a minimum of 15 years of service and hired prior to July 1, 2004. The District shall contribute \$9,000 annually to retirees Premium Only HRA for 8 years or until Medicare eligibility; whichever occurs first.

Employees covered by benefit terms. At June 30, 2020, the following employees were covered by the benefit terms.

Inactive plan members or beneficiaries currently	
receiving benefit payments	25
Active plan members	156
	181

# **Contributions**

Per the District's Trust Agreement the District shall make contributions to the Trust from time to time as required per contractual agreement, and, in addition, such other contributions, if any, as it may determine in its discretion. For the year ended June, 30, 2020, the District's average contribution rate was 3.22 percent of covered-employee payroll.

#### Investments

*Investment policy*. The District's policy in regard to the allocation of invested assets is established and may be amended by the School Board by a majority vote of its members. It is the policy of the School Board that all investments shall be made and administered in compliance with legal requirements, sections 25.50, 34.05, 34.08, 66.06.07, 120.11(3), 120.12(7), 120.16(5) Wisconsin State Statues and other regulatory authorities. The District's asset allocation policy as of June 30, 2020 was comprised entirely of fixed annuity investments.

*Rate of return.* For the year ended June 30, 2020, the annual money-weighted rate of return, net of investment expense, was 3.42 percent.

#### **Actuarial Assumptions**

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method	Entry Age
Amortization Method	Level Dollar Amount
Remaining Amortization Period	30 Years
Asset Valuation Method	Market Value
Inflation	2.00%
Salary Increases:	3.00%
Investment Rate of Return	2.25%
Discount Rate	2.25%
Retirement Age	Early Retirement - Age 55 years
-	Regular Retirement - Age 57
	(30 or more years of service)
Assumed Rate of Return on Plan Assets	2.25%
Plan Participation of Future Retirees	100%
Mortality	Wisconsin 2012 Mortality Table
Healthcare Cost Trend Rates	7.50% decreasing 0.5% per year to 6.5%, then by .1% to 5.0% thereafter

The long-term expected rate of return on OPEB plan investments was determined based on the District's investment in a fixed annuity account which has a guaranteed minimum rate of return of not less than 2.25 percent. Given this information and based upon the actuary's determination that the level of asset in the District's trust will remain sufficient to pay future retiree benefits, the District determined a 2.25 percent long-term expected rate of return to be reasonable for valuation purposes. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Fixed Annuity	100%	2.25%

# NOTE 4 OTHER INFORMATION (CONTINUED)

#### B. Other Postemployment Benefit Other than Pensions (OPEB) (Continued)

#### **Discount Rate**

The discount rate used to measure the total OPEB liability was 2.25 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. Further, the discount rate was determined by looking at actual investment returns for the last three years and take the rounded average, therefore a discount rate of 2.25 percent was used in calculating the District's OPEB liabilities.

# OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the District recognized OPEB expense of \$98,190. At June 30, 2020, District reported deferred outflows of resources or deferred inflows of resources related to OPEB from the following sources.

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Description	1100001000	TRESOURCES

on OPEB Investments	22,932	-
Total	\$ 61,192	\$ 25,989

These deferred outflows and inflows of resources will be recognized in OPEB expense as an increase of \$9,218 for years 2021-2022, an increase of \$6,724 for year 2023, an increase of \$3,853 for year 2024, an increase of \$1,520 for year 2025, and an increase of \$4,670 thereafter.

#### C. Compensated Absences

The District's policy on allowing accumulated employee leave to vest varies between types of benefits. Associate staff earn varying amounts of vacation for each year employed. Vacation days must be used in the year earned unless approval is obtained from the District administrator to carry over vacation days to the next year.

The District's policy on allowing sick leave benefits to vest is based upon employee and union contracts. Teachers who meet certain age and length of service requirement and have accumulated at least 100 days of unused sick days will have their unused sick days vested at the current substitute pay rate. This amount will be contributed by the District toward the cost of health benefits for the retired teacher.

The District also provides associate staff retirees who meet certain age and length of service requirement, a cash payout of their unused sick leave at a rate of \$90 per day. The District's estimated liability for vacation and sick leave benefits at June 30, 2020 totaled \$670,658 and is financed through the District's annual operating budget on a pay-as-you-go basis. It was recorded as a long-term obligation in the government-wide financial statements.

# D. Employee Benefit Fund

The District has established an employee benefit trust fund to account for resources placed into a trust to assist in funding the District's early retirement benefit obligations (see Note 4.A). The District contributed \$233,847 during 2019-20. The employee benefit trust fund had net position of \$657,620 at June 30, 2020.

# E. Limitation on School District Revenues

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes. The annual revenue increase from these sources is based on pupil count and is limited to the amount approved by legislative action unless a higher amount has been approved by a referendum. The State also placed a limit on the decrease in the annual revenue cap due to declining enrollments. The State further allows an exemption equal to 75% of the prior year unused allowable revenue. This limitation does not apply to revenues needed for payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

# NOTE 4 OTHER INFORMATION (CONTINUED)

#### F. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. There have been no reductions in coverage during the past year and settled claims have not exceeded this commercial coverage in any of the last three years.

#### G. Contingencies

During the year, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. The full impact of COVID-19 is unknown and cannot be reasonably estimated.

## SCHOOL DISTRICT OF AMERY Amery, Wisconsin NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2020

#### **BUDGETARY INFORMATION**

GASB Statement No. 34 requires the presentation of budgetary comparison schedules for the general fund and for each major special revenue fund. Budgetary information for the general fund is derived from the District's annual operating budget.

Budgets are adopted each fiscal year for all funds in accordance with Section 65.90 of the Wisconsin Statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction. The District's legally adopted budget and budgetary expenditure control is exercised at the function level in the general fund and at the fund level for all other funds. Reported budget amounts are as originally adopted or as amended by School Board resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- Based upon requests from District staff, District administration recommends budget proposals to the school board.
- The school board prepares a proposed budget including proposed expenditures and the means of financing them for the July 1 through June 30 fiscal year.
- A public notice is published containing a summary of the budget and identifying the time and place where public hearing will be held on the proposed budget.
- Pursuant to the public budget hearing, the school board may make alterations to the purposed budget.
- Once the school board (following the public hearing) adopts the budget, no changes may be made in the amount of the tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire school board.
- Appropriations lapse at year-end unless authorized as a carryover by the school board

Budget amounts in the financial statements include both the original adopted budget and the final budget.

#### SCHOOL DISTRICT OF AMERY Amery, Wisconsin NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE JUNE 30, 2020

#### NOTE 1 GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance present the expenditures of all federal financial assistance programs and state financial assistance of the District subject to inclusion under the federal and state single audit requirements. The reporting entity is defined in Note 1 to the financial statements.

The District has elected to not use the 10% de minimis indirect cost rate.

#### NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the modified accrual basis of accounting, which is described in Note 1 to the District's financial statements.

#### NOTE 3 FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed for the USDA Commodities Program (CFDA #10.555).

#### NOTE 4 MEDICAL ASSISTANCE

Expenditures presented for the Medicaid School Based Services (SBS) Benefit represent only the federal funds for the program that the District receives from the Department of Health Services (DHS). District records should be consulted to determine the total amount expended for this program.

#### NOTE 5 FEDERAL AWARDS TO SUB-RECIPIENTS

The District did not pass through any federal awards to sub-recipients in the current year.

#### INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education School District of Amery Amery, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of School District of Amery, Wisconsin (District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 24, 2020.

# Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as 2020-001 and 2020-002 to be material weaknesses.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# School District of Amery's Response to Findings

The District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE AND STATE SINGLE AUDIT GUIDELINES

Board of Education School District of Amery Amery, Wisconsin

# Report on Compliance for Each Major Federal and State Program

We have audited School District of Amery, Wisconsin's (District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. We have also audited the District's compliance with types of compliance requirements described in the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration that are applicable to each of its major state programs (including federal programs required to be tested as major state programs) for the same period. The District's major federal programs and major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

# Management's Responsibility

Management is responsible for compliance of federal and state statutes, regulations and the terms and conditions of its federal and state awards applicable to its federal and state programs.

# Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*; and the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration. Those standards, the Uniform Guidance, and state guidelines require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination on the District's compliance.

#### **Opinion on Each Major Federal and State Programs**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2020.

#### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the *Uniform Guidance* and *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency or a combination of deficiencies, in internal control of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of the *Uniform Guidance* and *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

# Section II – Financial Statement Findings – Federal Awards

# 2020 – 001 Limited Segregation of Duties

Type of Finding:

• Material Weakness in Internal Control over Financial Reporting

**Condition:** The auditors noted during the audit that the available staff precludes a proper separation of duties to assure adequate internal control.

**Criteria or specific requirement:** Generally, a system of internal control contemplates separation of duties such that no individual has responsibility to execute a transaction, have physical access to the related assets, and have responsibility or authority to record the transaction.

**Context:** The limited size of the District's staff responsible for accounting and financial duties precludes a complete segregation of incompatible duties. The District has informed us that it may not be cost effective to hire the additional personnel required to achieve complete segregation of duties.

**Effect:** Lack of segregation of duties could result in a financial statement misstatement, caused by error or fraud that would not be detected or prevented by District staff.

Cause: The condition is due to limited staff available.

**Repeat Finding:** This is a repeat of the prior year finding 2019-001.

**Recommendation:** The District should continue to evaluate its staffing in order to segregate incompatible duties whenever possible.

**Views of responsible officials and planned corrective actions:** The District continues to work to achieve segregation of duties whenever cost effective. The District Administrator is the official responsible for ensuring corrective action of the deficiency.

#### Section II – Financial Statement Findings – Federal Awards (Continued)

#### <u>2020 – 002</u> Material Audit Adjustments

Type of Finding:

Material Weakness in Internal Control over Financial Reporting

**Condition:** The audit firm proposed and the District posted to its general ledger accounts adjusting journal entries for correcting certain misstatements.

**Criteria or specific requirement:** The District should have controls in place to prevent or detect a material misstatement in the financial statements in a timely manner.

**Context:** The District has informed us that they will continue to rely upon the audit firm to propose such audit adjustments as are necessary to adjust accounts in accordance with Generally Accepted Accounting Principles (GAAP). Management will review and approve those entries prior to recording them.

**Effect:** The financial statements of the District may include inaccurate information not detected or prevented by District staff.

**Cause:** The District has not established controls to ensure that all accounts are adjusted to their appropriate year end balances in accordance with GAAP.

**Repeat Finding:** This finding is a repeat of the prior year finding 2019-002.

**Recommendation:** The District should continue to evaluate its internal control processes to determine if additional internal control procedures should be implemented to ensure that accounts are adjusted to their appropriate year end balances in accordance with GAAP.

**Views of responsible officials and planned corrective actions:** The District will continue to rely upon the audit firm to propose audit adjustments necessary to adjust accounts in accordance with GAAP. Management will review, approve and accept these entries prior to recording them. The District Administrator is the official responsible for ensuring corrective action of the deficiency.
