

STUDENT LOCKERS

Lockers shall be provided, when space is available and with School Board approval, for each student in grades one through 12 for the storage and safety of personal possessions.

School officials and/or their designee and the School Liaison Officer have the right of access to student lockers at all times since the lockers are district property. A locker deposit may be charged in accordance with established guidelines.

Instead of storing valuables in their lockers, students may bring them to the office for safekeeping.
