

**NON-DISTRICT TRANSPORTATION POLICY**

The expectation of the School District of Amery is that all District-sponsored athletic teams, extracurricular activities, field trips, competitions, and other events utilize District transportation and transportation staff. The use of non-District transportation (i.e.- chartered bus and motor coach service) shall be approved by the athletic director and/or the director of transportation. Booster organizations seeking to use non-District transportation for school-sponsored athletic teams must have the approval of the athletic director as well. Only trips which exceed 125 miles one way will be considered for non-District charter and motor coach bus transportation.
