Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of Amery, Wisconsin (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

During the year ended June 30, 2024, as disclosed in Note 1 to the basic financial statements, the District restated the beginning net position and fund balance to correct the reporting of the investment balance. Our opinion was not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and the pension and OPEB plan schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The individual and combining fund statements and schedules, the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the schedule of state financial assistance as required by the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the individual and combining fund statements and schedules, the schedule of expenditures of federal awards, and the schedule of state financial assistance is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 16, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES
TO NET POSITION OF GOVERNMENTAL ACTIVITIES
JUNE 30, 2024**

Total Fund Balances - Governmental Funds	\$	22,099,803
--	----	------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. These assets consist of:

Capital Assets	\$ 72,457,531	
Accumulated Depreciation/Amortization	<u>(24,476,911)</u>	47,980,620

Wisconsin Retirement System Pension Plan:

The District's net pension plan liability (asset) and related deferred inflows and outflows are recorded only on the statement of net position. Balances at year-end are:

Net Pension Liability	(987,055)	
Deferred Outflows of Resources - Pension Related	8,340,716	
Deferred Inflows of Resources - Pension Related	<u>(5,274,304)</u>	2,079,357

Other Post Employment Benefit and Supplemental Pension Plan:

The District's pension liability and related deferred inflows and outflows are recorded only on the statement of net position. Balances at year-end are:

Net OPEB Liability	(519,012)	
Deferred Outflows of Resources - OPEB Related	177,387	
Deferred Inflows of Resources - OPEB Related	<u>(256,694)</u>	(598,319)

Some liabilities are not due and payable in the current period and, therefore, are not reported in the funds. Those liabilities consist of:

General Obligation Debt	44,990,000	
General Obligation Notes	218,706	
Leased Liability (Right-to-Use)	81,315	
Accrued Interest Payable on Long-Term Debt	436,452	
Vested Employee Benefits	<u>182,235</u>	(45,908,708)

The premium and discount on debt issued is deferred in the statement of net position and amortized over the life of the related debt. In the governmental funds the premium is considered an other financing source when received

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGE IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2024**

Net Change in Fund Balances - Total Governmental Funds \$ (23,198,401)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as Depreciation/Amortization expenses. In the current period these amounts are:

Capital Outlays Reported in Governmental Fund Statements	\$ 28,687,780	
Depreciation/Amortization Expense Reported in the Statement of Activities	<u>(1,258,196)</u>	27,429,584

Pension expenditures on the governmental funds are measured by current year employee contributions. Pension expenses on the statement of activities are measured by the change in net pension liability and the related deferred inflows and outflows of resources.

Pension Liability (Asset) and Related Items	111,639	
OPEB Liability and Related Items	<u>(59,138)</u>	52,501

Long-term debt incurred in governmental funds is reported as an other financing source, but is reported as an increase in outstanding long-term debt in the statement of net position and does not affect the statement of activities. The amount of long-term debt incurred in the current year is:

(5,030,287)

Repayment of principal on long-term debt is reported in the governmental funds as an expenditure, but is reported as a reduction in long-term debt in the statement of net position and does not affect the statement of activities. The amount of long-term debt principal payments in the current year is:

General Obligation Bond Payable	1,063,407	
Financed Purchase Agreements	210

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The financial statements of the School District of Amery (the District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

B. Reporting Entity

The School District of Amery is organized as a common school district. The District, governed by a five-member elected school board, operates early childhood through grade twelve and is comprised of all or parts of twelve taxing districts.

The financial reporting of the District is defined by the GASB to consist of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that the exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Fiduciary Component Unit

The Employee Benefit Trust accounts for several interdependent pieces arising from the rules of the other post employment benefit plan. The Plan is reported as a fiduciary activity and does not issue separate financial statements.

C. Government-Wide and Fund Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds) as described below:

Government-Wide Statements

The statement of net position and the statement of activities present financial information about the District's governmental type activities. (The District had no business-type activities for the reporting year.) These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Government-Wide and Fund Financial Statements (Continued)

Government-Wide Statements (Continued)

Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The fund statements provide information about the District's funds, including the fiduciary fund. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major funds; each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District has the following major governmental funds:

General Fund

The General Fund is the operating fund of the District. It is used to account for all financial resources of the District except those required to be accounted for in another fund.

Capital Projects Fund

The Capital Projects Fund is used to account for the accumulation of resources for, and the payment of, capital project related costs.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

All remaining governmental funds are aggregated and reported as non-major funds.

Additionally, the District reports the following fiduciary fund:

Employee Benefit Trust Fund

The Employee Benefit Trust Fund is used to account for resources held in trust for formally established employee benefit plans.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement Focus and Basis of Accounting

The government-wide and fiduciary trust fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 6 months after the end of the fiscal year, except for property taxes which have an availability period of 60 days. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and financing through leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Therefore, when program expenditures are incurred, both restricted and unrestricted fund balance may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in financial statements and accompanying notes. Actual results could differ from those estimates.

E. Assets, Liabilities, Deferred Inflows/Outflows and Net Position or Equity

1. Deposits and Investments

Investments of the District are stated at fair value. The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from date of acquisition. Cash and investment balances for individual funds are pooled unless maintained in segregated accounts.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**E. Assets, Liabilities, Deferred Inflows/Outflows and Net Position or Equity
(Continued)**

1. Deposits and Investments (Continued)

The District is required to invest its funds in accordance with Wisconsin Statutes 66.0603 and 67.11(2). State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. agency issues, high grade commercial paper, and the local government pooled-investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States and the local government pooled-investment fund.

Donations to the District of securities or other property are included in the Education Trust Fund and are invested as the donor specifies. In the absence of any specific directions, the District may invest the donated items in accordance with the laws applicable to trust investments.

2. Receivables and Payables

Property Taxes

Under Wisconsin law, personal property taxes and first installment real estate taxes are collected by city, town, and village treasurers or clerks who then make proportional settlement with the school district and county treasurer for those taxes collected on their behalf. The county treasurer then makes settlement with the city, town, village, and school districts before retaining any for county purposes collects second installment real estate taxes and delinquent taxes.

The District's property taxes are levied on or before October 31 on the equalized property valuation certified by the Department of Revenue. As permitted by a collecting municipality's ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31st, and a final payment no later than the following July 31st. The District is paid by the collecting municipality its proportionate share of tax collections received through the last day of the preceding month on or before January 15th, and by the 20th of each subsequent month thereafter. On or before August 20th, the County Treasurer makes full settlement to the District for any remaining balance. The County assumes all responsibility for delinquent real property taxes.

Property taxes are recognized as revenue in the period for which taxes are levied. The 2023 tax levy is used to finance operations of the District's fiscal year ended June 30, 2024. All property taxes are considered due on January 1st, when an enforceable lien is assessed against the property and the taxpayer is liable for the taxes. All taxes that are collected within 60 days of June 30th are considered available to pay current liabilities.

2. Receivables and Payables (Continued)

Accounts Receivable

All accounts receivable are shown at gross amounts. No allowance for uncollectible accounts has been provided since such allowance would not be material.

Interfund Balances

The current portion of lending/borrowing arrangements between funds is identified as "due to/from other funds." The non-current portion of outstanding balances between funds is reported as "advances to/from other funds." Advances between funds are offset by a fund balance reserve account to indicate that they are not available for appropriation and are not expendable available financial resources. For government-wide financial statements, eliminations were made for amounts due to and due from within the same fund type.

3. Inventories and Prepaid Items

Expendable supplies or non-capital items acquired for initial use in subsequent fiscal periods are recorded as inventories and/or prepaid expenses. Inventory and prepaid supplies are valued at the lower of cost (first-in, first-out method) or market and recorded as an expenditure when consumed rather than when purchased.

4. Capital Assets

Capital assets are reported at actual cost or estimated historical costs based on an appraisal conducted by an independent third-party appraisal firm. Donated assets are reported at estimated acquisition value at the time received.

Capitalization thresholds (the dollar valued above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements are as follows:

	Capitalization Threshold	Depreciation/ Amortization Method	Estimated Useful Life
Land	\$ 5,000	N/A	NA
Land Improvements	5,000	Straight-Line	20 Years
Buildings	5,000	Straight-Line	50 Years
Building Improvements	5,000	Straight-Line	7 to 30 Years
Furniture and Equipment	5,000	Straight-Line	5 to 20 Years
Vehicles	5,000	Straight-Line	8 Years
Leased Asset (Right-to-Use)	5,000	Straight-Line	5 to 20 Years
Textbooks, Library, and Media*	5,000	Straight-Line	5 to 7 Years

* For purposes of determining the capitalization threshold for these items the District groups all purchases for the year.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**E. Assets, Liabilities, Deferred Inflows/Outflows and Net Position or Equity
(Continued)**

5. Deferred Outflows of Resources

The District reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its government-wide statement of net position. The District reports deferred outflows of resources for other post-employment benefit and pension related items.

6. Deferred Inflows of Resources

The District reports increases in net position that apply to a future period as deferred inflows of resources in a separate section of its government-wide statement of net position. The District reports deferred inflows of resources for other post-employment benefit and pension related items.

7. Compensated Absences

It is the District's policy to permit certain employees to accumulate paid leave benefits. Liabilities for accumulated employee leave benefits are not accrued in the District's governmental fund financial statements but are recorded as expenditures when paid. Such liabilities are accrued in the government-wide financial statements when earned. The District's policies and estimated liabilities at year-end are further discussed in Note 5.C.

8. Other Postemployment Benefits Payable

Under the provisions of various employee and union contracts the District provides a retirement program for certain employees which include certain health insurance benefits. The amount to be incurred is limited as specified by contract. All premiums are funded from an employee benefit trust fund (see Note 5.E). The benefit accrual was actuarially determined.

9. Wisconsin Retirement System Pension Benefits

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Long-Term Obligations

In the government-wide financial statements, outstanding long-term debt and other long-term obligations are reported as liabilities.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. As required by state statute, premium and accrued interest received as part of the proceeds are recorded in the debt service fund.

11. Use of Restricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

12. Equity Classifications

Fund equity, representing the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources, is classified as follows in the District's financial statements:

Government-Wide and Fiduciary Fund Financial Statements

Fund equity is classified as net position in the government-wide and fiduciary fund financial statements and is displayed in three components. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is displayed as unrestricted.

Governmental Fund Financial Statements

In the fund financial statements, governmental funds report components of fund balance to provide information about fund balance availability for appropriation. Nonspendable fund balance represents amounts that are inherently nonspendable or assets that are legally or contractually required to be maintained intact. Restricted fund balance represents amounts available for appropriation but intended for a specific use and is legally restricted by outside parties. Committed fund balance represents constraints on spending that the government imposes upon itself by high-level formal action prior to the close of the fiscal period.

12. Equity Classifications (Continued)

Governmental Fund Financial Statements (Continued)

Assigned fund balance represents resources intended for spending for a purpose set by the government body itself or by some person or body delegated to exercise such authority in accordance with policy established by the board.

Unassigned fund balance is the residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications. It is the District's policy that at the end of each fiscal year, the District will maintain unassigned portion of fund balance for cash flow of at least 5% of annual general fund expenditures.

Committed fund balance is required to be established, modified, or rescinded by resolution of the District Board prior to each year end. Based on resolution of the District Board, the District Superintendent and/or District Director of Finances have the authority to establish or modify assigned fund balance. When restricted and unrestricted fund balance is available for an expenditure, it is the District's policy to first use restricted fund balance. When committed, assigned, and unassigned fund balance is available for an expenditure, it is the District's policy to use committed, assigned and finally unassigned fund balance.

F. Error Correction

During the year ended June 30, 2024 the District determined certain investment balances at year end in a prior year were not correctly reported at fair value. Therefore, in the governmental activities and capital projects fund the investment balance was understated by \$306,708 for the year ended June 30, 2023. In addition, interest revenue was understated by \$306,708 for the year ended June 30, 2023, which resulted in an increase of \$306,708 on the prior year's change in fund balance and net position. The effect of the restatement is shown in the table below.

	June 30, 2023 As Previously Reported	Error Correction	June 30, 2023 As Restated
Governmental Activities:	<u>\$ 22,296,916</u>	<u>\$ 306,708</u>	<u>\$ 22,603,624</u>
Capital Projects Fund:	<u>\$ 40,252,209</u>	<u>\$ 306,708</u>	<u>\$ 40,558,917</u>

NOTE 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the governmental fund financial statements and the government-wide financial statements, certain financial transactions are treated differently. Reconciliations of governmental fund balances and changes thereto to the net position and revenues/expenses shown in the government-wide financial statements are presented on pages 8 and 10, respectively.

NOTE 3 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

The District's budget is adopted in accordance with Chapter 65 of the Wisconsin Statutes and on a basis consistent with generally accepted accounting principles. Changes to appropriations authorized in the adopted budget generally require a vote of two-thirds of the entire membership of the governing body. The District's legal budget is adopted at the major function level in the general fund (i.e., general government). General fund expenditures were greater than budgeted expenditures for fiscal year 2024 as follows:

	Budgeted Amounts		Actual	Variance With Final Budget - Positive (Negative)
	Original	Final		
Expenditures:				
Instruction:				
Special Education Curriculum	\$ 2,086,574	\$ 2,220,306	\$ 2,314,422	\$ (94,116)

A. Deposits and Investments

The debt service fund accounts for its transactions through separate and distinct bank and investment accounts as recommended by the Department of Public Instruction. In addition, the trust fund uses separate and distinct accounts. All other funds share in common cash and investment accounts.

The District's cash and investments balances at June 30, 2024 were shown in the financial statements as follows:

Governmental Funds	\$ 27,051,954
Fiduciary Funds:	
Employee Benefit Trust Funds	527,750
Total	<u>\$ 27,579,704</u>

The above balances at June 30, 2024 consisted of the following:

Deposits at Financial Institutions:	
Bank Accounts Subject to Federal and State	
Governmental Activities	\$ 2,556,456
Fixed Interest Annuity	
Fiduciary Activities	527,750
Deposits with WISC:	
Governmental Activities	24,495,298
Non-Depository Petty Cash Funds	200
Total	<u>\$ 27,579,704</u>

Deposits at Financial Institutions

The insurance coverage of public unit accounts depends upon the type of deposit and the location of the insured depository institution. All time and savings deposits owned by a public unit and held by the public unit's official custodian in an insured depository institution within the State in which the public unit is located are added together and insured up to \$250,000. Separately, all demand deposits owned by a public unit and held by the public unit's official custodian in an insured depository institution within the State in which the public unit is located are added together and insured up to \$250,000. For the purpose of these rules, the term 'time and savings deposits' includes NOW accounts and money market deposit accounts but does not include interest-bearing demand deposit accounts (which were permitted after July 21, 2011). The term 'demand deposits' means both interest-bearing and noninterest-bearing deposits that are payable on demand and for which the depository institution does not reserve the right to require advance notice of an intended withdrawal. The insurance coverage of accounts held by government depositors is different if the depository institution is located outside the State in which the public unit is located. In that case, all deposits, both time and savings deposits and demand deposits, owned by the public unit and held by the public unit's official custodian are added together and insured up to \$250,000. Time and savings deposits are not insured separately from demand deposits.

Custodial credit risk for deposits is the risk that, in the event of bank failure, the District's deposits may not be returned. At June 30, 2024, the District's deposits were not exposed to custodial credit risk.

Coverage under the State Guarantee Fund may not exceed \$400,000 above the amount of coverage under federal depository insurance at any institution and is limited by the availability of the appropriations authorized therein. (Due to the relatively small size of the State Guarantee Fund in relation to the total coverage, total recovery of losses may not be available.) Also, Section 34.07 of the Wisconsin Statutes authorizes the District to collateralize its deposits that exceed the amount of coverage provided by federal depository insurance and the State Guarantee Fund.

Deposits in Repurchase Investment Sweep Account

The District has invested funds in government securities through and an overnight repurchase investment sweep account. After all debit and credit transactions have posted at the end of each business day, excess balances are automatically moved to the automated repurchase investment sweep account for overnight investment in government securities to maximize the use of idle funds. Interest is earned on a daily basis and withdrawals are generally available on the day of the request. Deposits in repurchase investment sweep account are not covered by federal depository insurance but are collateralized at 100% of the market value. The financial institution is acting as the agent and serves as custodian of the securities held as collateral for the District.

Investments

The District's investments at June 30, 2024 consisted of deposits in the following external investment pool, an investment with a fiscal agent:

Investment with Fiscal Agent

The deposits with fiscal agent consisted of amounts paid into the employee benefit trust fund (see Note 5.B and Note 5.C) and are comprised of amounts invested in non-registered fixed annuity accounts. These funds are held at MidAmerica. The investment is neither rated nor insured. Interest is earned on a daily basis and funds are available on demand.

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. The District's policy is to invest its funds in accordance with provisions of the Wisconsin Statutes previously discussed Note 1.E.1. The District does not have a concentration risk policy that would restrict the percentage of investment holdings that can be in one issuer or counterparty.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the fair values of investments with maturity dates further into the future are more sensitive to changes in market interest rates. The daily maturities of the investment in Mid-American mitigate this risk to the District.

As of June 30, 2024, the District had the following investments subject to interest rate risk:

WISC was established in 1988 by school officials pursuant to an Intergovernmental Cooperation Agreement designed specifically for investment of funds by participating Wisconsin public entities. It is governed by a board of commissioners comprised of superintendents and business officials of participating entities. The investment objective of the Fund is to provide a competitive yield for participants while maintaining liquidity and preserving capital by investing only in securities and instruments in which public entities are permitted to invest by Wisconsin law. The Commission has contracted with JPMorgan Chase Bank to act as its investment advisor and with PMA Financial Network, Inc. (PMA) to administer the Fund. B. Fair Value Measurements

The District uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The District follows an accounting standard that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. In accordance with this standard, the District has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities.

Level 2 – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

Level 3 – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants and would use in pricing the asset.

Lease Liability – Right-to-Use

The District leases copiers, printers, computers and chromebooks with various terms under long-term noncancelable lease agreements, which expire at various dates through 2029. The District is required to make annual principal and interest payments. The District used the incremental borrowing rate as the interest rate for the right-to-use asset agreements if an interest rate was not provided in the lease agreements. The future minimum lease payments for these lease agreements are as follows:

<u>Fiscal Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 34,007	\$ 2,758	\$ 36,765

Bond Anticipation Note	-	5,000,000	5,000,000	-	-	56,250	4.50%	9/6/24

The District's temporary notes payable consists of a line of credit that has an outstanding maximum draw limit of \$2,000,000. Any outstanding balance on the line of credit is secured by tax receipts sufficient for repayment. The temporary notes payable is for short-term cash flow purposes.

On April 11, 2024, the District issued \$4,975,000 in refunding bonds for the purpose of refinancing bond anticipation notes which were used as interim financing of capital expenditure projects. The notes bear an interest rate of 4.50% and matures on September 6, 2024.

A. Wisconsin Retirement System Pension Plan Benefits

General Information about the Pension Plan

Plan Description.

The Wisconsin Retirement System (WRS) is a cost-sharing, multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible state of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <http://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Vesting

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits Provided

Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Postretirement Adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Contributions

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period July 1, 2023 through June 30, 2024, the WRS recognized \$870,689 in contributions from the employer. Contribution rates as of June 30, 2024 are:

	<u>Employee</u>	<u>Employer</u>
General (Including Teachers)	6.90%	6.90%

Pension Liability (Asset), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the District reported a liability of \$987,055 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2022 and rolled forward to December 31, 2023.

No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension asset was based on the District's contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2023, the District's proportion was 0.06638762%, which was a decrease of 0.00120469% from its proportion measured as of December 31, 2022.

For the year ended June 30, 2024, the District recognized pension expense (revenue) of \$686,104.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions

The total pension liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2022
Measurement Date of Net Pension Liability (Asset):	December 31, 2023
Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Long-Term Expected Rate of Return:	6.8%
Discount Rate:	6.8%
Salary Increases:	
Wage Inflation:	3.0%
Seniority/Merit:	0.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table
Post-Retirement Adjustments*:	1.7%

*No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2021. The Total Pension Liability for December 31, 2023 is based upon a roll-forward of the liability calculated from the December 31, 2022 actuarial valuation.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations.

The investment policy used for the Core Funds involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. Currently, an asset allocation target of 12% policy leverage is used, subject to an allowable range of up to 20%.

Sensitivity of the District's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.80%, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (5.80%) or one-percentage-point higher (7.80%) than the current rate:

Single Discount Rate

A single discount rate of 6.80% was used to measure the Total Pension Liability, for the current and prior year. The discount rate is based on the expected rate of return on pension plan investments of 6.80% and a municipal bond rate of 3.77% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2023. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 6.80% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the investment rate of return on pension plan investments was applied to all period of projected benefits payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Payable to the Pension Plan

At June 30, 2024, the District reported a payable of \$-0- for the outstanding amount of contributions to the pension plan for the year ended June 30, 2024.

B. Other Postemployment Benefit Other than Pensions (OPEB)

The District engaged an actuary to determine the District's liability for postemployment healthcare benefits other than pensions.

Single-Employer Plan Description

The District offers a supplemental retirement program for certain employees which includes medical, dental, and long-term care insurance benefits. The District provides these benefits according to negotiated agreements. The amounts vary based on age, years of service, and classification of employees. The School Board of the District is designated as the administrator of the OPEB plan and it reserves the right to alter, amend, or terminate the OPEB at any time for any reason, without consent.

Benefits Provided

Administrators and Teachers: At least age 56 with a minimum of 15 years of service and hired prior to July 1, 2004. The District shall contribute \$9,000 annually to retirees Premium Only HRA for 8 years or until Medicare eligibility; whichever occurs first.

Employees covered by benefit terms. At June 30, 2024, the following employees were covered by the benefit terms.

Inactive Plan Members or Beneficiaries Currently	
Receiving Benefit Payments	24
Active Plan Members	122
Total	<u>146</u>

Contributions

Per the District's Trust Agreement the District shall make contributions to the Trust from time to time as required per contractual agreement, and, in addition, such other contributions, if any, as it may determine in its discretion. For the year ended June, 30, 2024, the District's average contribution rate was 2.92% of covered-employee payroll.

Investments

Investment Policy

The District's policy in regard to the allocation of invested assets is established and may be amended by the School Board by a majority vote of its members. It is the policy of the School Board that all investments shall be made and administered in compliance with legal requirements, sections 25.50, 34.05, 34.08, 66.06.07, 120.11(3), 120.12(7), 120.16(5) Wisconsin State Statutes and other regulatory authorities. The District's asset allocation policy as of June 30, 2024 was comprised entirely of fixed annuity investments.

Rate of Return

For the year ended June 30, 2024, the annual money-weighted rate of return, net of investment expense, was 4.21%.

Actuarial Assumptions

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method:	Entry Age Normal
Amortization Method:	Level Percent of Salary
Remaining Amortization Period:	5 Years
Asset Valuation Method:	Market Value
Salary Increases:	3.00%
Investment Rate of Return:	4.21%
Discount Rate:	4.21%
Retirement Age:	Early Retirement - Age 55 years Regular Retirement - Age 57 (30 or more years of service)
Plan Participation of Future Retirees:	100%
Mortality:	Wisconsin 2018 Mortality Table
Healthcare Cost Trend Rates:	7.0% decreasing to 6.5% then decreasing 0.1% per year to 4.5%.

The long-term expected rate of return on OPEB plan investments was determined based on the District's investment in a fixed annuity account which has a guaranteed minimum rate of return of not less than 4.21%. Given this information and based upon the actuary's determination that the level of asset in the District's trust will remain sufficient to pay future retiree benefits, the District determined a 4.21% long-term expected rate of return to be reasonable for valuation purposes. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Annuity	100%	4.21%

Discount Rate

The discount rate used to measure the total OPEB liability was 4.21%. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees.

B. Other Postemployment Benefit Other than Pensions (OPEB) (Continued)

Discount Rate (Continued)

Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. Further, the discount rate was determined by looking at actual investment returns for the last three years and take the rounded average, therefore a discount rate of 4.21% was used in calculating the District's OPEB liabilities.

C. Compensated Absences

The District's policy on allowing accumulated employee leave to vest varies between types of benefits. Associate staff earn varying amounts of vacation for each year employed. Vacation days must be used in the year earned unless approval is obtained from the District administrator to carry over vacation days to the next year.

The District's policy on allowing sick leave benefits to vest is based upon employee and union contracts. Teachers who meet certain age and length of service requirement and have accumulated at least 100 days of unused sick days will have their unused sick days vested at the current substitute pay rate. This amount will be contributed by the District toward the cost of health benefits for the retired teacher.

The District also provides associate staff retirees who meet certain age and length of service requirement, a cash payout of their unused sick leave at a rate of \$90 per day. The District's estimated liability for vacation and sick leave benefits at June 30, 2024 totaled \$182,235 and is financed through the District's annual operating budget on a pay-as-you-go basis. It was recorded as a long-term obligation in the government-wide financial statements.

D. Limitation on School District Revenues

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes. The annual revenue increase from these sources is based on pupil count and is limited to the amount approved by legislative action unless a higher amount has been approved by a referendum. The State also placed a limit on the decrease in the annual revenue cap due to declining enrollments. The State further allows an exemption equal to 75% of the prior year unused allowable revenue. This limitation does not apply to revenues needed for payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

E. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. There have been no reductions in coverage during the past year and settled claims have not exceeded this commercial coverage in any of the last three years.

F. Commitments and Contingencies

Construction Contracts

The District is committed to a series of construction contracts for the purpose of improvements for the elementary, intermediate, middle and high school buildings and grounds. Expected remaining commitments to Kraus Anderson Construction Company include high school renovations totaling \$9,883,523, athletic facility renovations totaling \$3,804,853, and elementary school renovations totaling \$4,198,152. Remaining bond proceeds of \$20,772,657 have been placed in the District's capital projects fund for this purpose.

G. Subsequent Events

On October 21, 2024 the District issued \$2,000,000 in tax and revenue anticipation notes for the purpose of meeting immediate expenses of operating and maintaining the public instruction in the District during the current school year. The bonds bear interest of 3.25% and mature on October 31, 2025.

NOTES TO SCHEDULE

Valuation Dated: July 1, 2022

Measurement Dated: June 30, 2024

Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Valuation Date:	June 30, 2022
Measurement Date:	June 30, 2024
Reporting Date:	June 30, 2024
Actuary Cost Method:	Entry Age Normal
Healthcare Cost Trend Rates:	7.00% decreasing to 6.50%, then decreasing 0.10% per year to 4.50%, and level thereafter
Discount Rate:	4.21%
Municipal Bond Rate Source:	S&P Municipal Bond 20 Year High Grade Index
Actuarial Assumption:	Based on an experience study conducted in 2021 using Wisconsin Retirement System (WRS) experience from
Mortality Assumptions:	2020 WRS Experience Tables for Active Employees and Healthy Retirees projected with mortality improvements using the fully generational MP-2021 projection scale from a base year of 2010.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2024**

NOTE 1 BUDGETARY INFORMATION

GASB Statement No. 34 requires the presentation of budgetary comparison schedules for the general fund and for each major special revenue fund. Budgetary information for the general fund is derived from the District's annual operating budget.

Budgets are adopted each fiscal year for all funds in accordance with Section 65.90 of the Wisconsin Statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction. The District's legally adopted budget and budgetary expenditure control is exercised at the function level in the general fund and at the fund level for all other funds. Reported budget amounts are as originally adopted or as amended by Board of Education resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- Based upon requests from District staff, District administration recommends budget proposals to the board of education.
- The board of education prepares a proposed budget including proposed expenditures and the means of financing them for the July 1 through June 30 of the fiscal year.
- A public notice is published containing a summary of the budget and identifying the time and place where public hearing will be held on the proposed budget.
- Pursuant to the public budget hearing, the board of education may make alterations to the proposed budget.
- Once the board of education (following the public hearing) adopts the budget, no changes may be made in the amount of the tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire board of education.
- Appropriations lapse at year-end unless authorized as a carryover by the board of education.

Budget amounts in the financial statements include both the original adopted budget and the final budget.

NOTE 2 EXCESS OF EXPENDITURES OVER BUDGET

Comparisons of actual revenues and expenditures to budgeted amounts for the District's general fund is presented as required supplementary information following the basic financial statements. Expenditures in excess of budgeted amounts at the legally adopted levels for each of the fund are shown in that schedule.

NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS
AND STATE FINANCIAL ASSISTANCE
JUNE 30, 2024**

NOTE 1 BASIS OF PRESENTATION

The accompanying schedules of expenditures of federal awards and state financial assistance present the expenditures of all federal financial assistance programs and state financial assistance of the District subject to inclusion under the federal and state single audit requirements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and the State of Wisconsin Single Audit Guidelines, which in certain types of expenditures are not allowable or are limited as to reimbursement. The reporting entity is defined in Note 1 to the financial statements. The information in this Schedule is presented in accordance with the requirements of 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and the State Single Audit Guidelines. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position of the District.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the modified accrual basis of accounting, which is described in Note 1 to the District's financial statements.

NOTE 3 FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed for the USDA Commodities Program (Assistance Listing Number 10.555).

NOTE 4 INDIRECT COSTS

The District has not elected to use the 10% de minimis indirect cost rate.

NOTE 5 MEDICAL ASSISTANCE

Expenditures presented for the Medical School Based Services (SBS) Benefit represent only the federal funds for the program that the District receives from the Department of Health Services (DHS). District records should be consulted to determine the total amount expended for this program.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Education
School District of Amery
Amery, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of School District of Amery (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated April 16, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified.

We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2024-001 and 2024-002 that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

School District of Amery's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements, and accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE AS REQUIRED BY *UNIFORM GUIDANCE* AND
*STATE SINGLE AUDIT GUIDELINES***

Board of Education
School District of Amery
Amery, Wisconsin

Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal and State Program

We have audited School District of Amery's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2024. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the *State Single Audit Guidelines*. Our responsibilities under those standards, the Uniform Guidance, and the *State Single Audit Guidelines* are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal and state programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the *State Single Audit Guidelines* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the *State Single Audit Guidelines* we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and the *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

2024 – 001 Limited Segregation of Duties

Type of Finding: Material Weakness in Internal Control over Financial Reporting

Condition: The auditors noted during the audit that in all areas the available staff precludes a proper separation of duties to assure adequate internal control. The limited size of the District's staff responsible for accounting and financial duties precludes a complete segregation of incompatible duties. The District has informed us it may not be cost effective to hire the additional personnel required to achieve complete segregation of duties.

Criteria: Generally, a system of internal control contemplates separation of duties such that no individual has responsibility to execute a transaction, have physical access to the related assets, and have responsibility or authority to record the transaction.

Effect: Lack of segregation of duties could result in a financial statement misstatement, caused by error or fraud that would not be detected or prevented by District staff.

Cause: The condition is due to limited staff available.

Repeat finding: This is a repeat of the prior year finding 2023-001.

Recommendation: The District should continue to evaluate its staffing in order to segregate incompatible duties whenever possible.

Views of responsible officials and planned corrective actions: The District continues to work to achieve segregation of duties whenever cost effective. The District Administrator is the official responsible for ensuring corrective action of the deficiency.

Section II – Financial Statement Findings

2024 – 002 Material Audit Adjustments

Type of Finding: Material Weakness in Internal Control over Financial Reporting

Condition: The audit firm proposed and the District posted to its general ledger accounts adjusting journal entries for correcting certain misstatements.

Criteria: The District should have controls in place to prevent or detect a material misstatement in the financial statements in a timely manner.

Cause: The District has not established controls to ensure that all accounts are adjusted to their appropriate year end balances in accordance with GAAP.

Repeat finding: This finding is a repeat of the prior year finding 2023-002.

Effect: The financial statements of the District may include inaccurate information not detected or prevented by District staff.

Recommendation: The District should continue to evaluate its internal control processes to determine if additional internal control procedures should be implemented to ensure that accounts are adjusted to their appropriate year end balances in accordance with GAAP.

Views of responsible officials and planned corrective actions: The District will continue to rely upon the audit firm to propose audit adjustments necessary to adjust accounts in accordance with GAAP. Management will review, approve and accept these entries prior to recording them. The District Administrator is the official responsible for ensuring corrective action of the deficiency.
